- Organizational chart the same

Mr. Hayward noted the excellent job in presenting a complete and positive budget ahead of schedule.

Mr. Schaewe echoed Mr. Hayward’s comments and thanked Ms. Sparapani and the Budget Subcommittee for their hard work.

After a brief discussion, a motion was made by Mr. Schaewe and seconded by Mr. Weber to submit the presented budget to the full board for approval. The motion passed unanimously.
7. **Building Renovation Project**

Ms. Sparapani reported on the three main phases of the MADACC building renovation. Phase one includes an addition onto the back of the shelter, providing the ability to install double sided kennels for MADACC’s dog population. Phase two includes renovating the veterinary department to include separate dog and intake areas and an updated surgical suite. Phase three includes updates to the front office reception area.

Ms. Sparapani reported the new dog kennels would have raised floors to cut costs and use existing floor drains. Each dog would have a double sided kennel which would improve safety for staff and improve the health and stress of dogs by eliminating the need to move each dog every day. Sound baffling will be added to the walls and ceiling and new epoxy floors would be applied.

Ms. Sparapani reported the veterinary department upgrades would provide two surgical tables for spay/neuter surgeries for the public’s animals and MADACC animals. Intake areas for dogs and cats would be separated to reduce the stress on animals at intake and therefore reducing disease.

Ms. Sparapani reported the reception area would include adding partitions at the front desk for privacy between clients and less stress for the animals entering MADACC. Moving the office island will help with process improvement.

Mr. Hayward questioned if all projects would be done at once. Ms. Sparapani noted the project would be done in phases as MADACC cannot shut its doors for renovations.

Mr. Schaewe questioned if any firm costs were finalized. Mr. Summerfield mentioned scope and costs will change throughout the project and suggested securing an Anticipation Note to cover construction costs then look at long term funding once costs have a firm number.

Mr. Summerfield noted Milwaukee County only issues debt once a year. Mr. Wyss noted West Allis may have the capacity to offer a long term loan.

Mr. Hayward asked if a motion would be made to approve the MADACC building renovations. Mr. Summerfield noted this is still in discussion phase as monies have not been secured for the project. Ms. Sparapani reported the intent is to approve the building plan and concept not the funding sources.

A motion was made by Mr. Schaewe and seconded by Mr. Summerfield to approve the MADACC building renovation conceptual plans, inclusive with the addition for the conference room. The motion passed with 5 approvals as Mr. Wyss abstained due to being new the Operations Committee.
